

Covid-19 Pandemic Plan

Dear Customer:

With recent events in mind, VESERIS developed a Pandemic Response Plan to assist our employees in the event of a Flu/Virus outbreak similar to what we are experiencing with the Covid-19 (Coronavirus). Designated personnel in the field and at corporate are responsible for monitoring and implementing the policy and procedures to minimize exposure to employees and business partners and ensure consistent service levels to our customers.

We are prepared to activate our Pandemic Response Plan on a local, regional and national basis. The plan covers several scenarios to minimize impact to our operations. With VESERIS' strategic geographic coverage in the US, Canada & Mexico where we can ship product from multiple locations if needed.

We want you to know that VESERIS is taking the threat of a pandemic outbreak seriously. We are monitoring the situation and have a plan in place to service our customers in the event of an outbreak at any of our facilities.

If you have any questions, please do not hesitate to contact your sales representative.
Regards,

Trace McEuen
